

Alvarinho Soalheiro 2012

The Alvarinho grapes used in the Soalheiro came from several small vineyards planted in granite soil between 100 and 200 meters and located in a very particular microclimate. Melgaço region, the northern point of Portugal, is protected by a range of mountains that create the perfect conditions of rainfall, temperature and number of hours of sunshine needed to the better ripeness of the Alvarinho grapes. The brand name – Soalheiro – arises from the excellent sun exposure of the vineyards bearing the same name – a sunny place.

Soalheiro 2012 – a perfect harvest. The summer months and specifically August had moderate temperatures and cool nights that favored a slow maturation and the concentration of the varietal aromas on the grapes. The beginning of September warm and dry contributed to a perfect balance in the Alvarinho. In 2012, flowering occurred two weeks later than last harvest, because of the little precipitation in winter. The rain arrived later and some during flowering which led to smaller grapes, but very balanced. This year we began the harvest on the second week of September to maintain usual freshness in the Soalheiro. Soalheiro Alvarinho 2012 is a wine in our style, elegant and intense.

Melgaço, Monção

Vinification

The grapes are harvested manually in boxes of small capacity and carried to the cellar in a short space of time. After the pressing and the before fermentation with controlled temperature, the must was decanted during 48 hours at low temperature. The objective of vinification is to obtain an Alvarinho Soalheiro that concentrates the quality of the grapes and that allows to a good evolution the bottle.
