

Alvarinho Soalheiro Primeiras Vinhas 2015

The grapes are produced with the concept of organic viticulture and harvest by hand from the old vines with more than 40 years at Quinta de Soalheiro, the First Vines “Primeiras Vinhas”. Currently in the blend also include a selection of Alvarinho grapes planted in Pé-franco.

The microclimate that influences the production of Alvarinho grapes is very particular. Melgaço region, the northern point of Portugal, is protected by a range of mountains that create the perfect conditions of rainfall, temperature and number of hours of sunshine needed to the better ripeness of the Alvarinho grapes. The brand name – Soalheiro - arises from the excellent sun exposure of the vineyards bearing the same name - a sunny place.

Soalheiro 2015 – a perfect and consistent vintage.

The summer months and specifically August had moderate temperatures and cool nights that favored a slow maturation and the concentration of the varietal aromas on the grapes. The beginning of September dry contributed to a perfect balance in the Alvarinho. In 2015, flowering occurred two weeks later than last harvest, because of the little precipitation in winter. This year we began the harvest on the first week of September to maintain usual freshness in the Soalheiro.

Soalheiro

Region
Melgaço, Monção

Vinification

The grapes are harvested manually in boxes of small capacity and carried to the cellar in a short space of time. After the pressing and the before fermentation with controlled temperature, the must was decanted during 48 hours. Fermentation essentially takes place in stainless steel vats at a very low temperature (only 15% of the total volume ferments in used oak barrels), and fine sediments is kept until the beginning of May. Currently in the blend also include a partial aging in large oak cask.
